

**Q.P. Code: 201390**

**Reg. No.:.....**

**Second Semester M.Sc Speech Language Pathology Degree Special  
Supplementary Examinations November 2024**

**SLP 201: Advances in Speech Sound Disorders**

**Time: 3 hrs**

**Max marks: 80**

- *Answer all questions to the point neatly and legibly • Do not leave any blank pages between answers • Indicate the question number correctly for the answer in the margin space*
- *Answer all parts of a single question together • Leave sufficient space between answers*
- *Draw table/diagrams/flow charts wherever necessary*

**Essays**

**(5x16=80)**

1. Describe in detail the various stages of phonological development. Comment on the applications of Natural Phonology theory of phonological development.
2. Describe the assessment battery for SSD. Explain the need for independent and relational analysis.
3. Highlight the differences between Motor based approaches and linguistic based approaches for SSD. Describe any two approaches with considerable evidence under both categories.
4. How is the phonological development in children with CLP different from typically developing children. Also discuss the development of morphology, semantics, syntax and pragmatics in children with CLP.
5. Explain the role of SLP in the orthodontic and prosthodontic management of individuals with CLP. Comment on the recent surgical options for CLP.
