**Time: 3Hrs**

**Max. Marks: 100**

- Answer all questions

**Problem Based Long answer question**

**(1x20 = 20)**

1. Male patient with 45 years of age, with a chief complaint of fatigue. Because of his heavy drinking, he has received several reprimands at work and his wife has threatened to leave him. He drinks 6 to 12 beers a day plus several ounces of hard liquor. He reports blackouts, an inability to quit drinking, tolerance for alcohol, and likely withdrawal symptoms. He has tried to quit on several occasions but has been unable to do so.

Discuss the approach of Homoeopathy in managing such a case, including the selection of remedies, scope, and limitations.

**Long answer question**

**(4x10 = 40)**
