Forward

The Kerala University of Health sciences was established on 7th December 2009 through an Act of the Legislative Assembly “The Kerala University of Health Sciences Act 2010”. The University – the realization of a long-cherished dream of the people of Kerala, functioning with a clear vision and mission, in consonance with the tenets of the Act, is in its 5th successful year of operation.

In spite of having only a skeletal staff, the University was able to re-affiliate/affiliate 264 colleges with it, including 11 colleges newly affiliated during 2014-15. The main infrastructure created for the smooth functioning of the University, its administrative building, an eight storied imposing structure, built within a short span of little over two years, started functioning from the early part of the year. Since its inception the University has created 10,155 competent and compassionate health care professionals. The University, expected to play a leadership and facilitatory role in health policy and planning, disease surveillance and monitoring, and the promotion of preventive, promotive and rehabilitatory aspects of health, has already established a school of Health Policy and Planning studies to conduct major studies on specific health issues in Kerala population. Further, establishment of several centers and schools in different geographical areas of Kerala for promoting research in all systems of medicine, is in the anvil.

The University has been striving hard for achieving the objective of timely conduct of Examinations and declaration of results in which it has succeeded to a great extent as 582 examinations were conducted during the year and results declared timely. The University has been conducting convocations once in a year at the least and this year also convocation was conducted in March 2015, in which degrees were awarded to 6989 students.

Thus the University, set out with dedication and determination to establish an ideal University with the sole purpose of ensuring good health of the people through high quality education, training and research, is presenting its Annual Report for the year 2014-15, to the people of Kerala through the following pages.

1. Introduction

The Kerala University of Health Sciences was established through an ordinance (The Kerala University of Health and allied Sciences ordinance, 2009 -25 of 2009) on 7th December, 2009. The Kerala State Legislature passed the Kerala University of Health Sciences Act (Act 4 of 2011) which received the assent of the Governor on 22nd January 2011 and was notified on the 24th of January 2011. Empowered to affiliate all health care professional Colleges throughout the State of Kerala, the University currently has 264 colleges, belonging to all the disciplines and all the branches of health sciences affiliated to it.

2. Objectives

- ❖ The objectives of the University, as envisaged in the Act, are to ensure proper and systematic teaching, training and research in all systems of Medicines (Modern Medicine, Homeopathy and Indian systems of Medicine including Ayurveda, Siddha, Yoga & Naturopathy and Unani, Dentistry, Nursing and other areas of health care and health sciences in the state by providing the necessary implementation and oversight mechanisms.
- ❖ The University is expected to play a leadership and facilitatory role in health policy and planning, disease surveillance and monitoring, and the promotion of preventive, promotive and rehabilitative aspects of health.
- ❖ The University is also mandated to address local and regional health issues, provide a platform for the dialogue as well as integrative research between different systems of health care and encourage the development of indigenous medicine and Homeopathy through research.
- ❖ To design new courses and curricula based on the advances in the field of health sciences.
- ❖ To regulate the standards of the affiliated colleges /institutions
- ❖ To organize programs to track health problems of the society.
- ❖ To give leadership to the medical human resource development in the state.
- ❖ To give leadership to the health planning and health policy formulation for the state.
- ❖ To give thrust to epidemiological studies, monitoring and surveillance system of the diseases prevalent in the State.
- ❖ To develop a platform for the dialogue between different systems of health care.
- ❖ To explore the possibilities of joint research programs and integration between different systems of medicine.

- ❖ To promote equitable distribution of facilities for education in health and allied Sciences
- ❖ To promote acquisition of Knowledge in a rapidly developing and changing society and to continuously offer opportunities for upgrading knowledge and imparting training and development of skills in the context of innovations, research and discovery in all fields of human endeavor by establishing educational network related to health sciences with the use of modern communication media and technology appropriate for a learning society.
- ❖ To give more thrust for the development of Indian systems of Medicine and all its branches and Homoeopathy by encouraging research and other academic activities in the relative areas.

3. Vision & Mission

Vision

- To Create a unique learning environment enriched to face any challenges in the Health care sector of the State of Kerala
- To provide ethical and value based education.
- To create competent and compassionate professionals who are heirs to the rich traditions of the world of science and ancient wisdom.
- To enrich the art and science of health care through research, by incorporating of traditional knowledge, and integration of best practices and to engage with the societies to address local and regional issues of health and wellbeing.
- The University is committed to bring about a paradigm shift in training health care professionals, so as to enable them to provide competent and compassionate care, motivate them to engage in research that address the health problems relevant to the state and country and prepare them to render leadership for the health and development of mankind.

Mission

- To produce, in a humanistic tradition, health care professionals and biomedical knowledge that will enhance and extend the quality of life in our communities and coming generations.
- To ensure high quality education in all branches of health care :
- To encourage Research
- To promote stake holder participation and Community Engagement by (1) establishing and maintaining an efficient and transparent administrative mechanism which is responsible and responsive to the needs of all the stake holders (students, Parents, Teaching and known teaching staff, affiliated colleges and the general public) and (2) by facilitating greater community/stake holder participation in the affairs of the University ; and through health awareness and health promotion programs

4. Milestones

- The office of the University started functioning in the newly constructed Administrative block in July 2014. Construction of the eight storied building was started in February 2012 and was completed within a record period of little over two years. The achievement is the result of concerted efforts of the contractor-M/s HLL, a public sector undertaking and our Engineering staff.

Our newly constructed Administrative Block

- The third convocation of the University was conducted successfully at Lulu International Convention Centre on 21.03.2015 during which 6959 students were conferred the degrees by Shri. S. Sivakumar, Pro Chancellor of the University and Minister of Health and Family Welfare, Government of Kerala.
- A Statutory Officers Committee was formed for effective monitoring of the activities of the University.
- An Ethics Committee was constituted for examining the research projects undertaken by the University Centers and to give advice to the affiliated colleges for maintaining ethical principles in research and clinical trial works.

- It was decided to establish the following schools at different Geographical areas of Kerala and Canters at University Campus for promoting research directly supervised by the university, over a period of five years.

5. ACTIVITIES OF EXAMINATION WING

Conducting of Examinations and publishing Results of the Examinations conducted are the most important duties of a University, because Universities are judged, among other things, on the effectiveness, punctuality etc in the matter of conducting Examinations. It is the important challenge faced by any University. Ever since the Establishment of Kerala University of Health Sciences, it has been striving hard for achieving this basic objective – the timely conduct of Examinations and declaration of results so that students do not lose time during the period of a course.

Right from the very beginning, KUHS has been following the practice of publishing the Tentative Examination Calendar before the beginning of each academic year so that the prospective examinees can plan for learning and attending the examinations. Usually, the Tentative Calendar once published is not subjected to changes except under exceptional circumstances. However, the magnitude of such changes are kept at the minimal rate.

The details of examinations conducted and students enrolled during the year 2014-15 were as follows:

Particulars	Number
Courses for which Examinations were conducted	126
Regular Examinations conducted	205
Supplementary Examinations conducted	377
Total Examinations conducted	582
The actual theory paper wise examinations and practical examinations conducted for all courses taken together	2,000
The average enrolment of students for all the Courses taken together	18,000
Courses offered – UG 19, PG 94, Super Speciality 15 and M Phil 2	130
The Colleges where the courses are offered spread all over Kerala.	261

The following table depicts Examinations conducted by KUHS in the various disciplines:

Disciplines	UG Degree	PG Degree	PG Diploma	Super speciality
Medical	01	23	14	14
Dental	01	09		
Ayurveda	03	16		
Homoeopathy	01	03		
Siddha	01	-		
Nursing	02	11		
Pharmacy	01	08		
Allied Health Sciences	09	10		

Prominent features of KUHS Examination System

The Examination System prevailing in KUHS has its own unique features such as

- Choice less question papers,
- Electronic transmission of Question Papers to the theory examination centres,
- Installation of digital surveillance system in the Examination Halls etc.

The Answer Books from the Theory Examinations Centres are despatched to University by speed post on the same day itself.

Publishing the Tentative Examination Calendar in the beginning of the Academic year itself is the hallmark of the Examination System.

Our system for registration for Examinations is made online right from the beginning. Colleges can register their candidates through online. The marks scored in the Internal Assessments, Attendance details of students appearing for the Exams and details of fee remitted are to be uploaded to the System online. As a measure to avoid unfair practices in the Internals, class average of Internal Assessment Marks is restricted to 75%.

Another remarkable point is that there is an **Examination Committee** for each examination. This committee supervises the overall matters for conduct of a particular Examination.

The Question Paper Bank for Examinations are prepared by national level experts. These Question Papers are scrutinized by state level Experts. These are all done ensuring required standards and secrecy in the matter. The Examination Committee designates a suitable Institution as the Nodal Centre for each Theory Examination. Instead of contacting the University every time for dealing examination related issues, the colleges can contact the Nodal Centre which acts on behalf of the University. Moreover, KUHS engages interdisciplinary Observers to oversee and report the proceedings of the Theory Examination Centres and also to report any unfair practice relating to the conduct of Examinations. Installation of CCTV System in the Examination Hall is one of the pre-conditions, only upon the fulfilment of this, a particular Institution shall be granted the status of Theory Examination Centre. The digitalized recordings of the proceedings of the examination hall shall be sent to the University along with the Answer Books on the same day except under exceptional circumstances, with the permission of the Controller of Examinations.

The following are the significant points about the prevailing Examination System in KUHS:

- Issue of Admit Card online.
- Candidates have to enter the Examination hall 30 minutes prior to the commencement of the Examination
- No candidate can enter into the Examination Hall after Question Paper for the Exam is transmitted from KUHS

- Secure delivery of online transmission of Question Papers 30 minutes prior to the conduct of the Examination to the Theory Examination Centres.
- Correction/modification/replacement of question within 15 minutes from the start of the Examination.
- Choice less question papers which ensures the reasonable standard expected from the Examinations.
- Online attendance report generation in the theory examination Centres
- Use of 52 /32 pages bar coded theory answer Books to ensure a standardisation in the System.
- No additional sheets are provided for writing Answers.
- Coded answer Books are given to Evaluators for evaluation.

Evaluation System

The System of Evaluation is designed, in addition to its own contributions, by taking the noteworthy and remarkable points of the erstwhile Health Universities in India. The intention of the University is to ensure maximum possible objectivity in the Evaluation process.

How Evaluation System Works

KUHS has adopted the system of Double valuation for all Under Graduate courses. Double valuation will be followed by a Third valuation whenever the marks scored by a student in the first and second valuation marks **vary more than** 15% of total marks. Our System will automatically generate such reports after the entry of marks scored in the first and second valuations. After the third valuation, the average of the two nearer marks is taken as the final mark. If a paper does not go for third valuation, the average of the two marks will be the final marks of the student.

For some PG Courses and Super Speciality Courses, Multiple valuation procedure is adopted. For courses like MSc Nursing, only double valuation (and third valuation if required) is adopted. Students can apply for re - totalling of marks within the time allowed. **However, there is no revaluation of Answer Books.** In order to ensure accuracy and punctuality and also for leaving behind no chance for manipulation, KUHS requires Colleges for online entry of practical marks from the examination centres on the day of examination itself. Once the permitted time is over, they can have no access to the marks in the Web site. The other prominent features with respect to Evaluation are the following:-

- Double barcode reading in tabulation
- Digitalised result processing
- University has fixed a fifty per cent (50%) criterion for University Theory part. This means that a separate minimum of 50 per cent for Theory Group is a basic requirement for pass in the Examination.
- Option for taking the Photostat copies of theory answer book and score sheets
- Examination System has been automated and also efficient, reliable, valid, time bound, student friendly and **totally tamper proof.**

Pass Boards - The results of all Examinations are finally scrutinized and approved by the respective Pass Boards before announcements of the results by publishing in the Web site.

Grace Marks/moderation restricted to UG courses only – The Grace Marks/moderation (maximum 5 marks) shall be given to students to secure a whole pass in the Examination. For some Courses, it is given for one paper only and for others, this is spread for one or more papers subject to a maximum of 5 for securing a whole pass in the Examination, all as per the guidelines of the respective Boards. No student pursuing studies for PG Course is eligible for moderation under any circumstances.

Another important feature of Examination system is the existence of a Committee called “Malpractices and Lapses Enquiry Committee”. This Committee examines every allegation of malpractice and lapses received in writing with respect to the conduct of Examinations. The concerned student/representative of the College/Chief Superintendent etc are called before the Committee and heard and a decision is taken by this Committee which needs the approval of the Governing Council at some situations.

Board of Adjudication for Students Grievances: A student not satisfied with the decision of the Examination Wing, on the petitions or complaints submitted by him can approach the Board for redressing of his/her grievances. The Board after hearing the concerned persons or Institutions declare appropriate decision on any complaint filed before it, with the approval of Governing Council.

Challenges

Examination System, in spite of all the efforts and endeavours taken by the Wing, has been experiencing certain challenges such as shortage of eligible Examiners for the conduct of practical examinations, last minute drop out of external examiners especially those who have been appointed from outside the State. Another challenge which stands in the way of timely declaration of Examination results is the shortage of Evaluators for timely completion of Evaluation process. Above all there is the pertinent problem of shortage of accountable Administrative staff in the Examination Wing.

From the point of view of the actual conduct of Examinations, another problem posed is the one relating to the setting of Zero error/defect Question paper. Loss of network connectivity, at least at times, and logistic issues regarding the printing and transporting of Answer Books are also other important issues to be addressed.

Impact Factor –

The sum total of all the efforts is that, in contrast to the hitherto system prevailing in other Universities, KUHS has been conducting Examination within the Course period itself. As a result of timely conduct of Examinations and declaration of results, the erstwhile prevailing course lag could be avoided. All the more KUHS could establish a brand value for KUHS Degree /Diploma.

Future plan –

In order to ensure maximum possible security in the conduct of Examination, KUHS plans to implement a few more measures such as Biometric finger print reader in all theory and practical examination centres (for preventing the probable acts of impersonation), Digitising of evaluation process and installation of online remote surveillance system in all theory examination centres so that the proceedings of Examination can be viewed from the University headquarters.

6. ACADEMIC ACTIVITIES

Academic programs conducted by Dean (Research)

The following academic programs have been conducted by Dean (Research) during the year 2014-15:

Sl. no	Date of programme	Details of Programme
1	24/10/2014	Workshops for Post Graduates and guides
2	27/11/2014	Session for quality improvement in Nursing education for the faculties of affiliated Nursing Colleges, in order to improve the success rate of students
3	5/12/2014	Workshop on manuscript writing to help PG students for publishing the research work
4	11/12/2014	Workshop for midlevel Nursing teachers on the subject of “strengthening communication skills”
5	22/12/2014 to 24/12/2014	3 days’ workshop on epidemiology and research methodology for PhD students
6	15/01/2015	Brain storming session with experts on bio statistics in order to develop a team on faculties who are trained in biostatistics
7	29/01/2015	Meeting with the guides of PhD programs of University.

Activities of Academic Section

I. Student Registration

It is one of the major activities of this section. The University fixes a cut-off date for uploading of basic data of the students who have got admission in affiliated institutions under KUHS by concerned colleges/institutions/ based on the allotment memo issued by the Entrance Commissioner. This is consolidated in the Academic section and is forwarded to the concerned Councils and to the Admission Supervisory Committee. Then a date for document verification is fixed for all colleges/institutions.

At the time of verification, the institutions have to produce the following documents:

1. Original Qualifying certificates./T.C.of admitted students.
2. Consolidated report of the concerned course.
3. Student proforma of the candidates
4. Government Agreement.
5. Prospectus of the concerned college
6. Certificate to provide evaluators by the Principals of concerned colleges.
7. Student Admission Register.
8. Allotment memo of students to the concerned college issued by the Entrance Commissioner.

The consolidated report of students produced at the time of verification by colleges/institutions should tally with the details already available with the University. The deficiency if any found on verification is intimated to them through a verification report. Only after clearing these deficiencies, Registration Number, ID card etc are allotted to students.

ii) Convening of Meetings and workshops

The section greatly contributes in convening the meetings of the General Council, Academic Council, Various Faculty meetings, Board of Studies meetings, conducting workshops to the inspection teams for granting affiliation to new colleges, courses and for continuation of affiliation etc.

iii) Matters related to issuance of Equivalency certificate, Condonation of break of study etc are also being dealt by the section.

iv) This section is also plays a major role in conducting convocation ceremony of passed out students.

v) Affiliation

Granting affiliation to the intending colleges/institutions and courses is also one of the major activity of the section. The norms for granting of provisional affiliation and continuation of provisional affiliation to colleges and courses are as detailed below:

A committee empowered to appoint the inspection committee will be appointed by the Vice chancellor. The inspection committee will only fill the format and shall not give any recommendation regarding the eligibility for recognition. The Board of studies will be entrusted with the responsibility of finalizing the requirements for each course and the format of inspection. They should conform to the requirements of statutory council wherever available. Dean of faculty will be responsible for finalizing and submitting the format for the concerned specialities. The minimum requirements should not be shown in the format given to the inspectors. The minimum requirements will be given to the scrutiny committee, while scrutinizing the inspection report. If there is a need, re-inspection should be entrusted to the same committee which did the inspection.

vi). The Scrutiny of Inspection Reports

The reports should be scrutinized by a 3 member committee constituted by The Vice chancellor which include Dean of the speciality and 2 Principals (of which one should be from Government sector). It should be assured that the members of the committee should not be from the same college or working under the same management .The scrutiny committee should check whether the colleges satisfies the requirements for affiliation and may make 3 decisions

1. Recommend affiliation with no of seats
2. In case of major deficiency recommend rejection of applications for affiliation
3. In case of minor deficiencies the committee may refer the details of deficiencies and the Academic Branch will inform the colleges to rectify the deficiencies. On receipt of the

compliance report from Principal, re inspection with the same inspection team will be posted if necessary.

Depending on the report from a scrutiny committee, the Hon'ble Vice chancellor may sanction consent for affiliation which can be submitted to Governing Council.

In case of provisional affiliation, the affiliation subcommittee of Governing Council (constituted by 3 DMEs) shall evaluate the documents and submit the report to the GC and GC will arrive at a decision.

In the case of granting of Continuation of Affiliation also the process is the same. Vice Chancellor will grant sanction, and later report to Governing Council.

vii). Complaint Redressal

In case of any complaints regarding the affiliation, the redressal should be in conformity with clause 55 of the Act. Vice chancellor shall constitute a 3 member committee which include dean of the faculty, and one expert from outside the university and one from the university to look into the complaint and submit a report if necessary with re inspection. Re inspection by the same inspectors is mandatory before accepting the conditional affiliation.

viii) A list of Colleges affiliated with the University as at the end of the year is appended as Annexure I at the end of the Report.

ix) The institutions affiliated during the period 2014-15 were as under:

1. Govt. Dental College, Alappuzha (Dental)
